## DETAILED ACTION

### ***Allowable Subject Matter***

1. Claims 39-62 are allowed.

The following is an examiner's statement of reasons for allowance:

The references fail to teach, disclose, or suggest, either alone or in combination, regarding Claim 39, the first storage space and the second storage space being substantially coextensive; regarding Claim 49, the second guiding structure including a printed circuit board positioned as a top wall of the device, regarding Claim 55, the base being coextensive and affixed to each of the first and second spaced apart sidewalls and a plate spaced apart from and facing the base defining the second storage space, regarding Claim 58, the base affixed to the first storage space and a series of individual plate members that are collectively apart from and facing the base to define a second storage space and in combination with all the limitations of the claims.

The Application is allowed since it has been amended as agreed in the Interview for the Parent Application 09/599,165 of March 27, 2003 and as stated in Applicant's arguments presented on Pages 6-7 (Parent Application 09/599,165, Amendment of May 20, 2003), the Claims would read over the Iwasaki et al. reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2833

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
